### **Parish Register Transcriptions**

In 1984, members of Clwyd FHS began the massive task of making full transcriptions of all the pre - 1813 Parish Registers for North East Wales. At that time, the year 1813 was chosen as a cut off date, because the older registers - before 1754 for marriages and before 1813 for baptisms and burials - are difficult to read, as standardised layouts were not normally used before those dates.

The work has involved a considerable amount of initial transcribing, checking, resolving queries (with the assistance of the staffs of the County Record Offices and the National Library of Wales), typing, re-checking and indexing.

In most cases, the transcriptions have been made from the facsimiles (bound photocopies of the original registers), which are held by the local Rector or Vicar; but where these have been difficult to read, the Flintshire and Denbighshire Record Offices have allowed the Society to transcribe from the original registers - with the use of an Ultra-Violet lamp if necessary.

The entries in the registers have also been checked against the Bishops Transcripts (where these exist) and in some cases the Bishops Transcripts have been used to fill gaps in the original registers. Every effort has been made to ensure accuracy. The County Record Offices, the National Library of Wales and the authorities of the Church in Wales have been extremely cooperative throughout the project.

The project is now complete - up to the year 1813. For some parishes, working parties have enthusiastically continued "beyond" 1813 and the Society is now encouraging member volunteers to extend the project well into the twentieth century. To date, over 600 Booklets (A4 size) have been published.

### **Monumental Inscriptions**
